Yarım asrı aşkın bir süredir alüminyum, paslanmaz ve pirinç başta olmak üzere metal sektörünün öncü kuruluşlarından olan ÜSTÜN GROUP, metal yapı ve dekorasyon sistemlerinde de tüm tecrübesiyle çözüm ortağınız olmaya devam ediyor. Sektörün ihtiyaçlarının en etkili biçimde karşılanması, sorunlarının yaratıcılıkla çözülmesi için araştırma ve geliştirme yapılması ve bilinmeyenlerin keşfedilmesi firmamızın sahip olduğu bilincin temel taşlarıdır. Yurt içi ve yurt dışında ulaştığımız başarılı konumu, gittikçe küreselleşen dünyanın artan rekabet ölçeğinde, ilkesinden taviz vermeyeceğimiz müşteri odaklı yaklaşımımızla birlikte daha ileri taşımaya devam ediyoruz.

Sizlere en iyiyi sunmak amacını çalışanına saygılı, çevresine duyarlı bir üretim, dağıtım ve uygulama eksenine oturtmuş olmak gerçeği, sizin bize gösterdiğiniz güven sayesinde oluşmuştur. Biz de ÜSTÜN GROUP olarak uzman kadromuzla size;

- ☐ En kaliteli ürünleri
- ☐ En yaratıcı çözümleri
- ☐ En güvenilir desteği
- ☐ En iyi servisi

sunmayı ilkemiz ve amacımız edindik.

Projelerinizde ve danışmanlık gerektiren uygulamalarınızda uzman kadromuz en etkin ve en estetik çözümler için sizinle çalışacaklar. Projeniz için en uygun ürünü ve uygulamayı seçebilmeniz için sizi bilgilendirecek, yönlendirecek ve destekleyecekler.

ÜSTÜN GROUP ailesi, üretkenliğini gelişen teknoloji ile birleştirerek güvenli, ilkeli, ileri görüşlü ve yenilikçi çizgisini sizin için yine sizinle beraber yarınlara taşımaktan büyük onur duyar...

Over a period of half a decade, ÜSTÜN GROUP, being a leading institution of metal business mainly in aluminium, steel and brass, continues to be your partner in solution in metal construction and decoration systems with all its experience. Answering the needs of the sector, doing research and development in order to creatively satisfy the needs of the sector and discovering the unknown are the fundamental stones of the consciousness of our company. We continue to take our successful position in inland and abroad without compromising our customer based approach in the increasingly global world with its increasing competetion scale.

It is the courtesy of your trust in us that the fact, we have structured our production, distribution and application on an axis that is respectful to its workers and sensitive to the environment, has been realized. We as ÜSTÜN GROUP along with our expert staff have acquired as our principle and our goal to present to you;

- ☐ Highest quality products
- ☐ Most creative solutions
- ☐ Most reliable support
- ☐ Best service

In all your projects and applications that need consulting, our expert staff will work with you for the most efficient and most aesthetic solutions. They will inform, guide and support you for you to choose the right product and the right application for your project.

ÜSTÜN GROUP family, combining its productivity with the progressing technology, is ever proud to take forward its company thought of confidence, principles, research and foresight along with you into the future...

* Alüminyum çekmece kapağına, çekmece kasasını monte edebilmek için özel alın tutucu kullanılır. Bunun için alın tutucu alüminyum çita vasıtası ile monte edilir.

* Özel köşe bağlantı elemanı ile köşeler birleştirilir.
* Menteşeler bulunması gereken noktalar tespit edildikten sonra yukarıdaki üç aşamada bastırılarak oturtulur.
* Montaj kanalları çita profil ile kapatılır.

Minifiks Bağlantısı

Karyola Köşe Bağlantısı

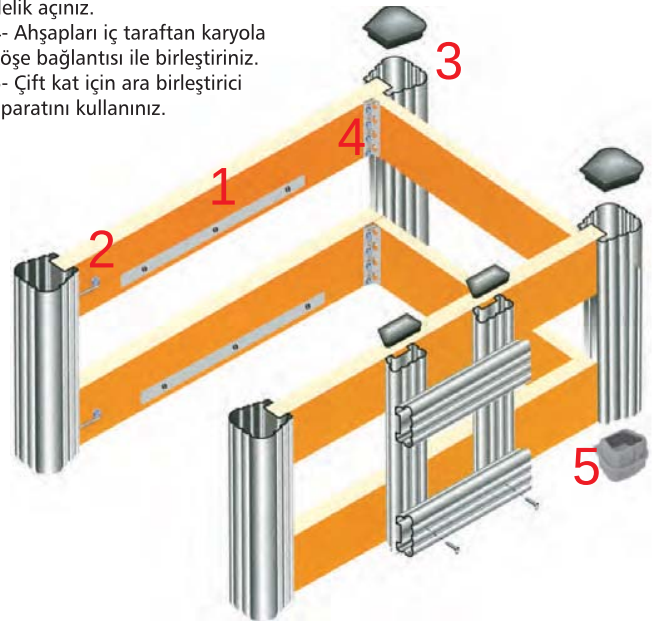

1- Karyola alt taşıyıcı profilini (MD 104) ahşabın iç tarafına vidalayınız. MD 104 nolu profil yatak tablası ile gövdeyi birbirlerine tutturduğundan ranzanın salınım yapmaması amacıyla kullanımı özellikle tavsiye edilir.

2- Minifiksleri ahşaba monteleyiniz.

3- Minifiks karşılıkları için alüminyum ayaklara delik açınız.

4- Ahşapları iç taraftan karyola köşe bağlantısı ile birleştiriniz.

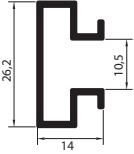

5- Çift kat için ara birleştirici aparatını kullanınız.

- * 60 kg ağırlığındaki sürgü kapaklarda kullanılır.
- * Kapakların kalınlığına göre üst metal klavuzla uygun tekli ve çiftli ray seçenekleri mevcuttur.
- * 16-18-20-22 mm kalınlıklarındaki sunta kapaklara uygulanabilir.
- * Alt mekanizma poliamid kaplı çelik rulman tekeri ile çalışır.
- * Ayarlı ve Ayarsız mekanizma seçenekleri mevcuttur.

Technical drawing of a door frame. The drawing shows a horizontal line representing the top rail and four vertical lines representing the side rails. The total width of the top rail is dimensioned as 59,2. The height of the side rails is dimensioned as 19,8. The width of the segment between the first and second side rails is dimensioned as 20,8.

A diagram of a stepped profile. The vertical height of the first step is labeled 6,6. The horizontal length of the first step is labeled 16,6.

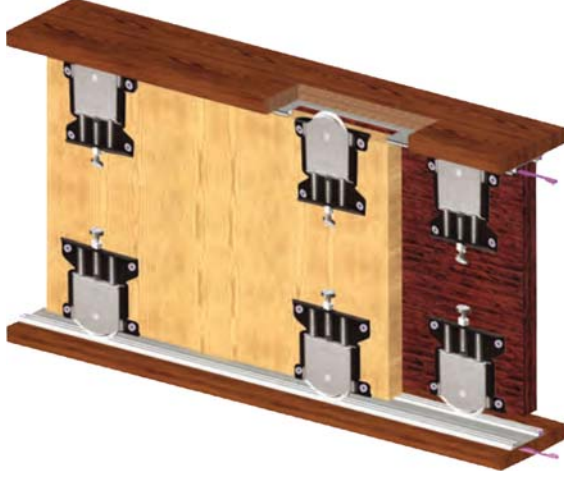

Technical drawing of a rectangular frame. The total width is 59,2. The total height is 19,8. A segment width is indicated as 20,8.

Technical drawing of a mechanical part (Fig. 10) showing a cross-section with dimensions 12,1 and 5,5.
